

PlumbEasy vs The Market

Who Are Our Competitors & Why We Will Win
Complete Market Analysis — Simple & Clear

Big Competitors Already in the Market

Urban Company

Biggest Home Services App in India

Available in 30+ major cities across India

Offers plumbing, cleaning, beauty and more

Takes high commission from professionals

App-only based booking system

Customers complain about professionals not showing up, no personal follow-up and poor accountability after booking

NoBroker

Real Estate + Home Services

Available in Mumbai, Bangalore, Pune, Chennai

Plumbing added recently as a side service

Fixed pricing, no bargaining possible

Requires full app registration

Plumbing is not their main focus. Hard to get bookings during peak times. Not available in smaller cities at all

Housejoy

Home Services Booking Platform

Available only in 6-8 metro cities

Plumbing, electrical, cleaning services

Starting price ₹162 per service

App and website based

Not active in smaller cities. Limited plumber network. Customer service issues reported frequently

Mr. Right

Home Services App

Limited to major metros only

Plumbing, electrical, carpentry

Background-checked professionals

App-only booking system

Very limited city coverage. App quality issues reported. No local expertise or personal verification system

Online Plumber App

Small Play Store App

Gujarat region only

Basic plumbing booking only

Sells plumbing supplies also

Very basic app, rarely updated

Very poor app quality. No verification system at all. Only 1 developer maintaining it. Very limited reach

Book A Plumber

Basic Play Store App

Rajasthan based, very limited

Basic plumber contact only

No proper payment system

Poorly built, last updated 2022

Extremely outdated. No trust or verification. Not maintained. Poor customer experience throughout

Personal Touch
None — fully automated

High — family business feel
Plumber Trust Level
Medium — complaints common
Very High — expert verified
Startup Cost
Crores of rupees
Under ₹50,000 only

 Our 6 Unfair Advantages

40 Year Expert Verification

Our interview system backed by 40 years of contractor experience. No big app has this. Cannot be easily copied.

Unique to PlumbEasy

Deep Local Focus

We know our city better than any big app. Local contacts, local language, local trust. Big apps are too large to be local.

Our City = Our Strength

WhatsApp First

Works for everyone — educated or not, young or old. No app download needed. 99% of people already use WhatsApp.

Zero Barrier Entry

Contractor Network

Instant access to plumbers through existing contractor relationships. Big apps spent crores to build what we already have for free.

Built-in Network

Very Low Cost Start

Under ₹50,000 to launch. No shop rent, no stock, no big team needed. Lean and profitable from day one with first bookings.

Low Risk High Return

Untapped Market

Millions in smaller cities have zero access to trusted plumber apps. We enter before any big competitor reaches them. First mover wins!

Blue Ocean Market

 Our Strategy to Beat Competitors

1

Dominate One City

Focus 100% on your local city first. Get every plumber and every customer in the city. Be the go-to name for plumbing.

Months 1-6

2

Build Strong Reviews

Collect 100+ genuine reviews. Build a reputation that big apps cannot compete with. Word of mouth spreads fast locally.

Months 3-9

3

Expand to Nearby Cities

Once dominant locally, move to 2-3 nearby cities using the same model. Use earnings to fund expansion without outside investors.

Month 9-18

4

Build Real App & Scale

With revenue and proven model, build a proper app. Raise small investment if needed. Become the Urban Company of plumbing for Tier 2 and Tier 3 cities.

Year 2+

"The big apps are like **big supermarkets** — they have everything but nobody knows you personally. PlumbEasy is like a **trusted local shop** — everyone knows you, trusts you and comes back again and again."

🏆 Why PlumbEasy Will Win

We are not trying to beat Urban Company on their ground.
We are building something they cannot do — deep local trust in every city they ignore.

6 Competitors

All have major weaknesses we fix

Millions

People in small cities with no service

0 Apps

With expert interview verification

₹50K

All we need to start and win locally

40 Years

Expertise no competitor can copy
